Povzetek

V letošnjem letu sem se kot učiteljica pridružila iEARN-organizaciji. Od septembra do novembra sem obiskovala izobraževanje, ki je v celoti potekalo na spletu. V skupini nas je bilo veliko učiteljev iz različnih koncev sveta. Tedensko smo dobivali naloge, ki smo jih morali izvajati skupaj z učenci na svoji šoli. S pomočjo tega izobraževanja smo z otroki spoznali šolo v Sierra Leone, ki je šele v nastajanju, in spoznali krute razmere, v katerih živijo tamkajšnji otroci. S pomočjo interneta in elektronske pošte smo si začeli dopisovati in vzpostavili pristne stike. Z učiteljem sva si zastavila nalogo oblikovati projekt, ki bi bil zanimiv za otroke po vsem svetu in v katerem bi otroci spoznavali različne kulture, življenje svojih vrstnikov v drugih državah po vsem svetu. Trenutno je projekt v nastajanju in kmalu bomo z njim tudi zares začeli. Celoten projekt bo temeljil na spletni izmenjavi slik, besedil, video posnetkov in drugih gradiv. Verjetno bomo organizirali tudi videokonference, da bo stik med otroki čim pristnejši. Čeprav je v svetu takšna obveščanost glede dogajanja, kot ni bila še nikoli prej, so mediji včasih preveč enostransko usmerjeni. Z našim projektom želimo medije preseči in pokukati v domove otrok po vsem svetu.

Abstract

I joined iEARN organization in current school year. From September till November I took an online course, which was entirely done through the internet. In this online seminar there were a lot of teachers from all over the world. We were given our tasks weekly and we were carrying them out with our students in classrooms. In this course we became familiar with school from Sierra Leone, we learned about the poor conditions they struggled with. We started to write to each other. With the teacher and founder of this school we are now developing a

project that would involve all the children around the world, in which the children would learn about the cultural and economical differences, about life of their peers around the world. Soon we will launch this project. We will exchange pictures, videos and other materials, mostly with the help of web tools. We will also organize videoconferences, so that the children will experience really close contacts with other children. Our project seeks to go beyond the media of today world to peep into the conditions children around the world are living in.
