

JUNIOR LANGUAGE SCHOOL

LUPACOVKA

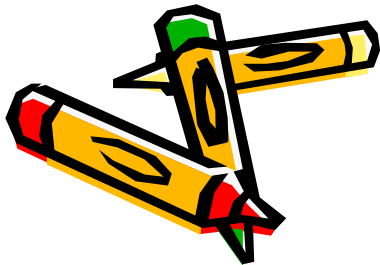

introduces its projects

- E-twinning projects (Photoalbum, Living in Europe)
- *Granny, beware of the Mouse* (projects for seniors)
- **BioEurope (Biology for Europe)**
- Calibrate (Europe projects for schools)
- SMART PET (international exams)

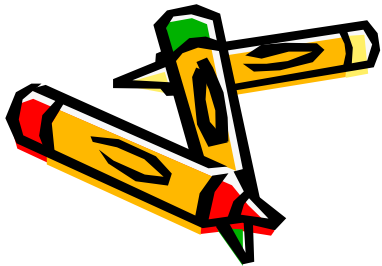

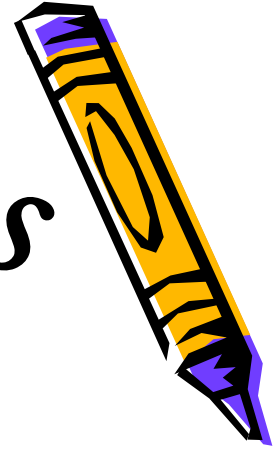

Biology for Europe BioEurope

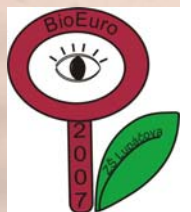

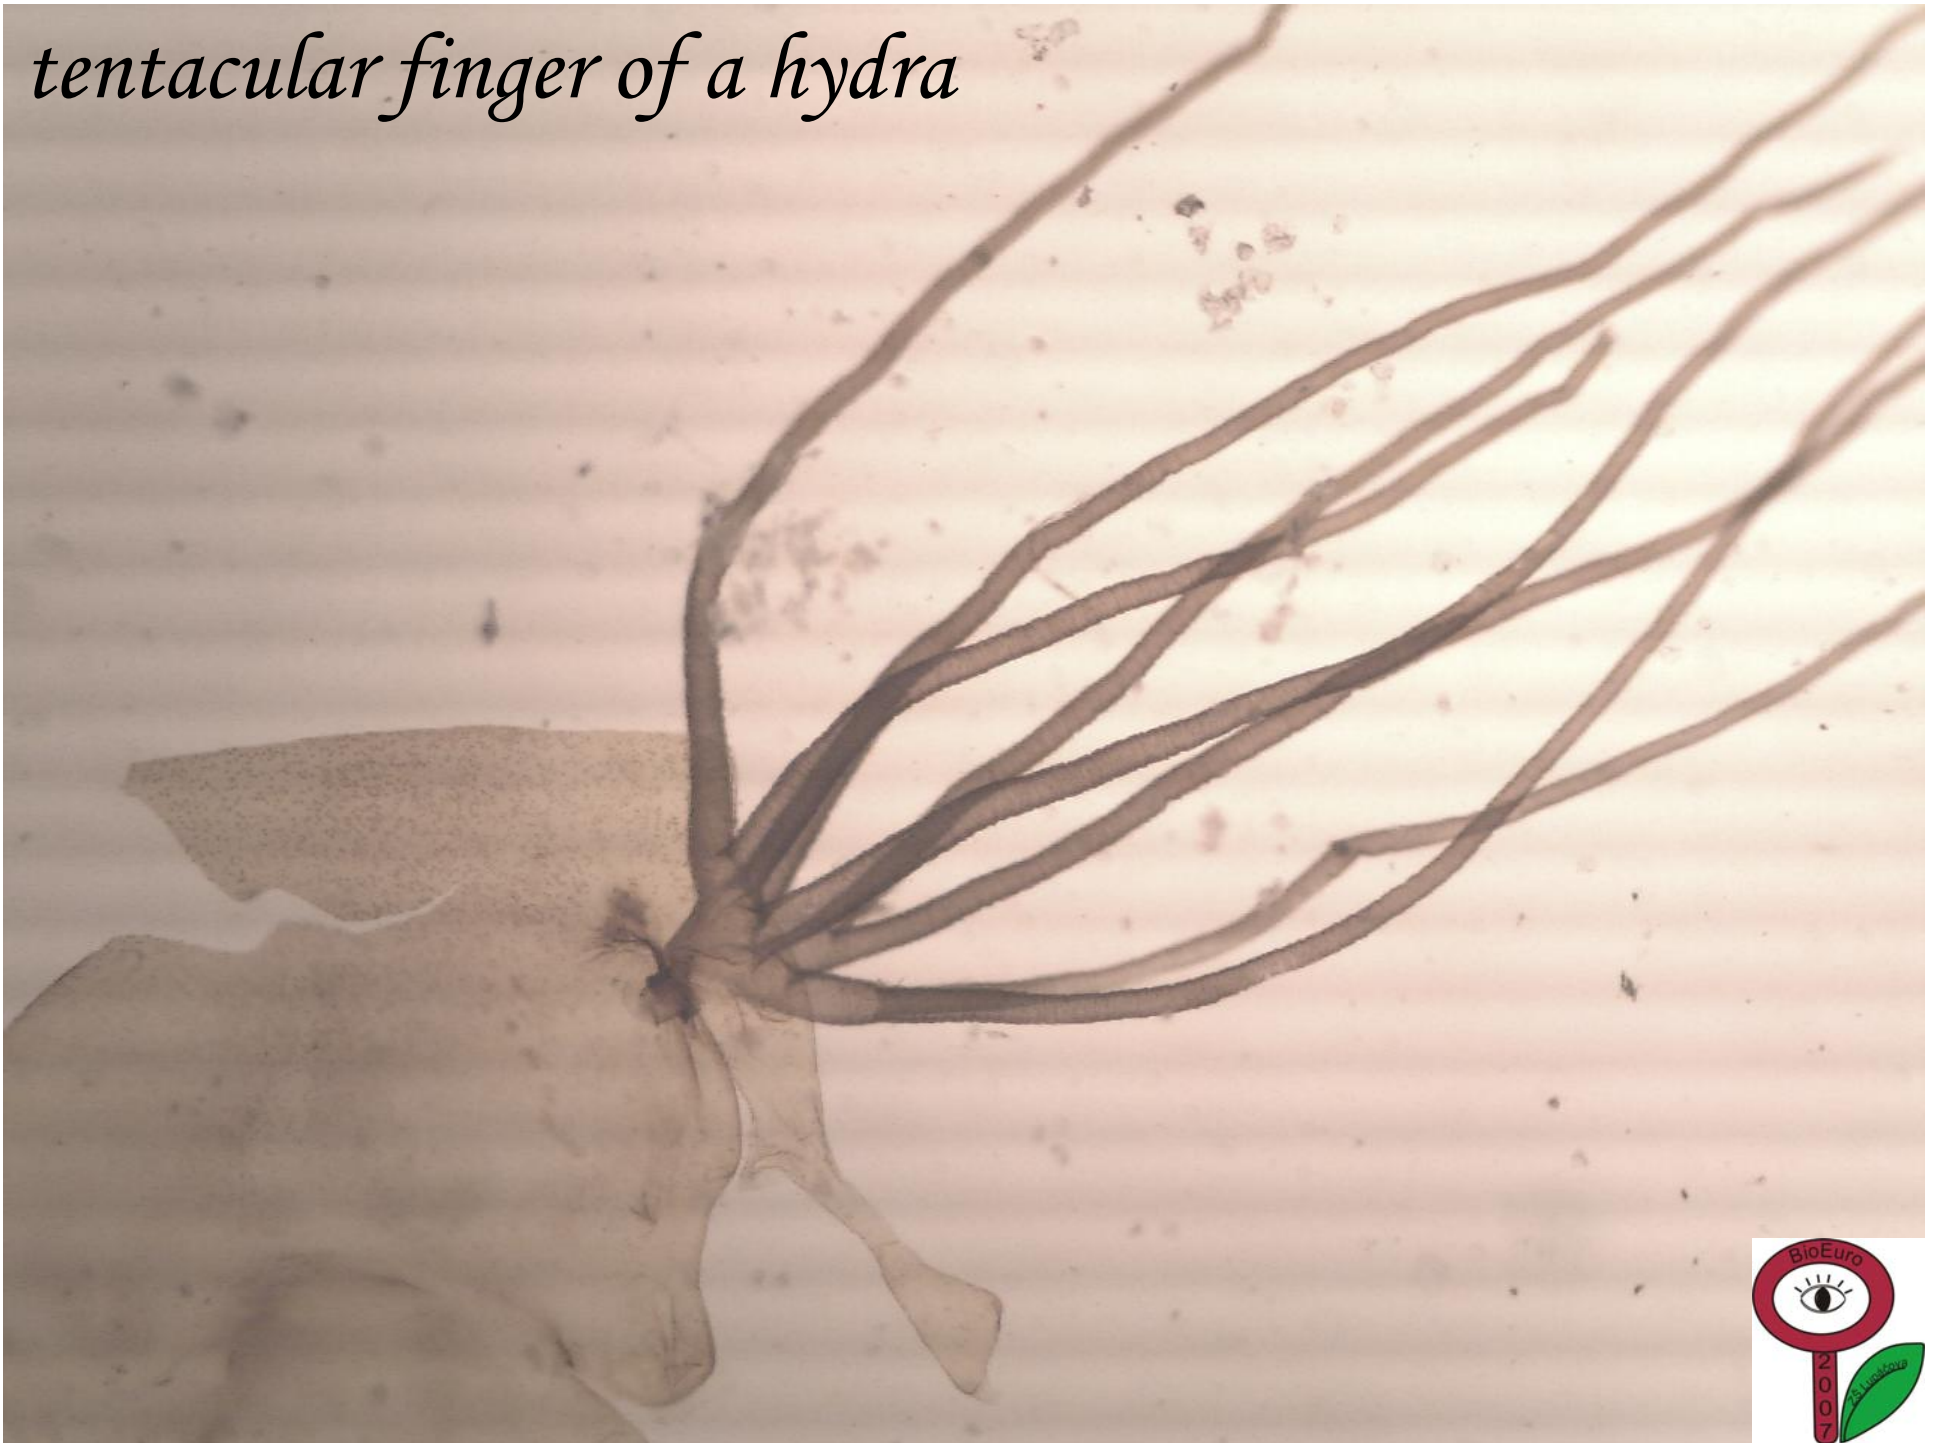

- project for high ability kids aged 12-14
- to support their interest for science,
- to give them new educational competences
- to prepare their own microscopic samples
- to present them with modern authoring tools
- to prepare transferable LO's to European schools

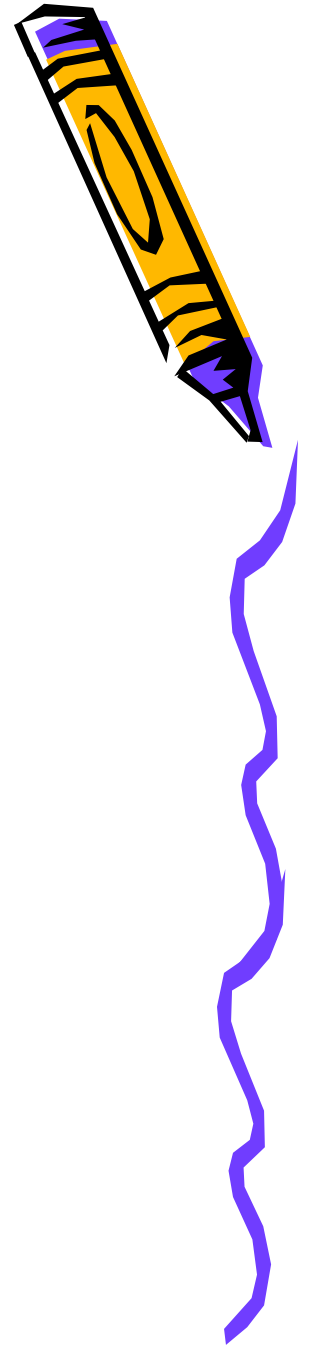

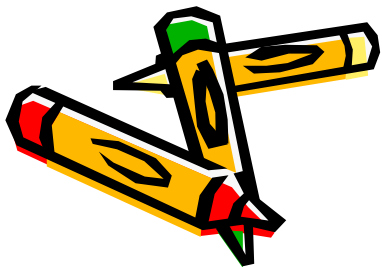

Biology in concept maps

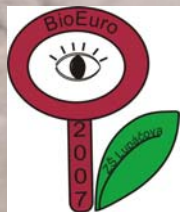

tentacular finger of a hydra

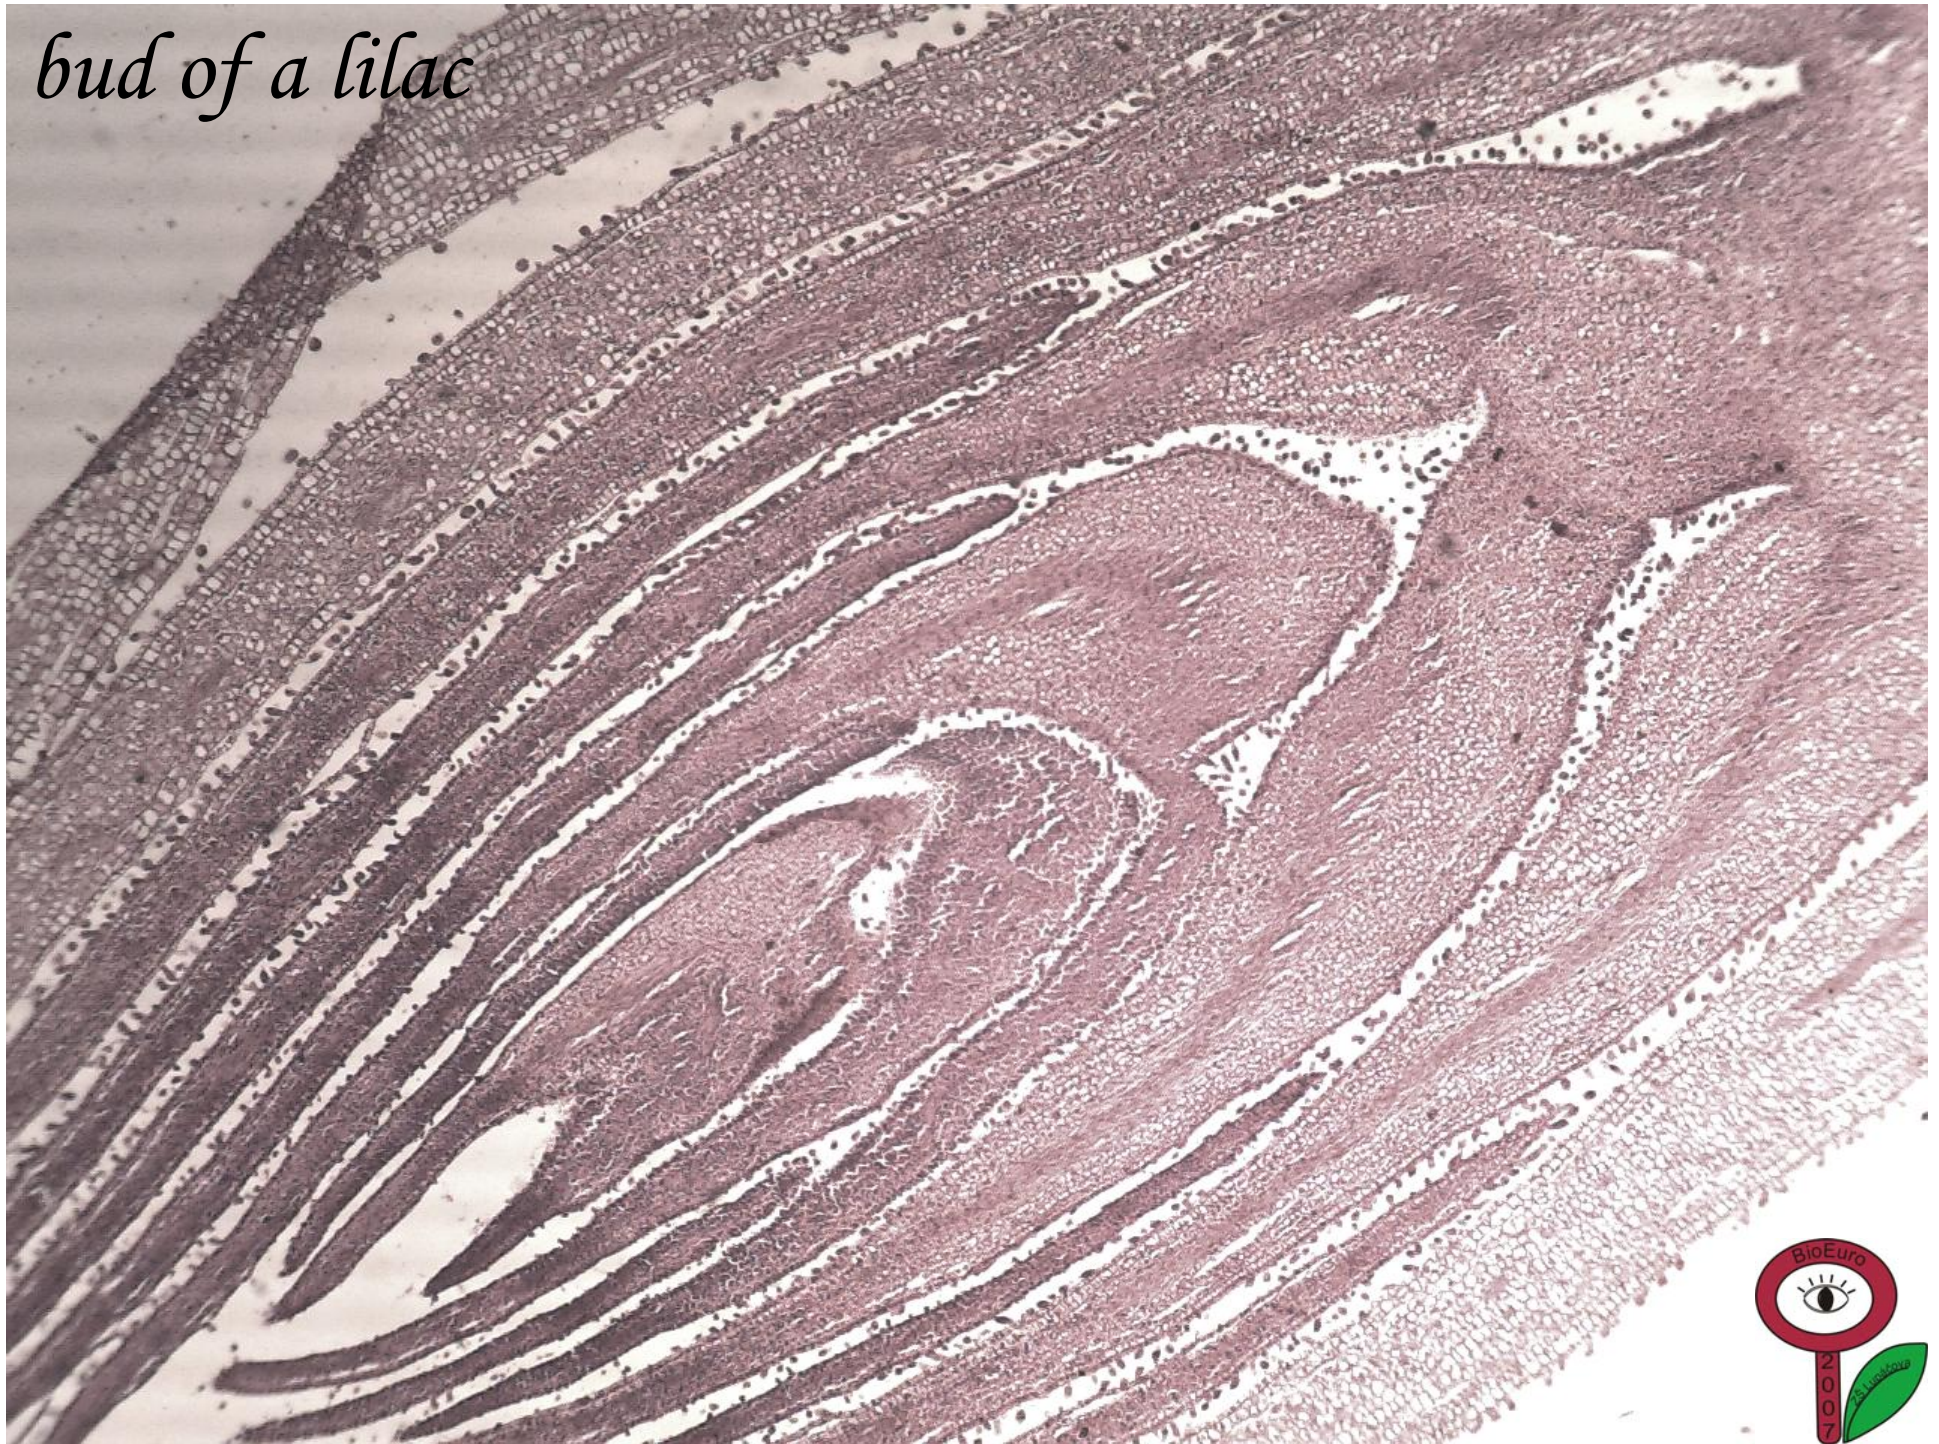

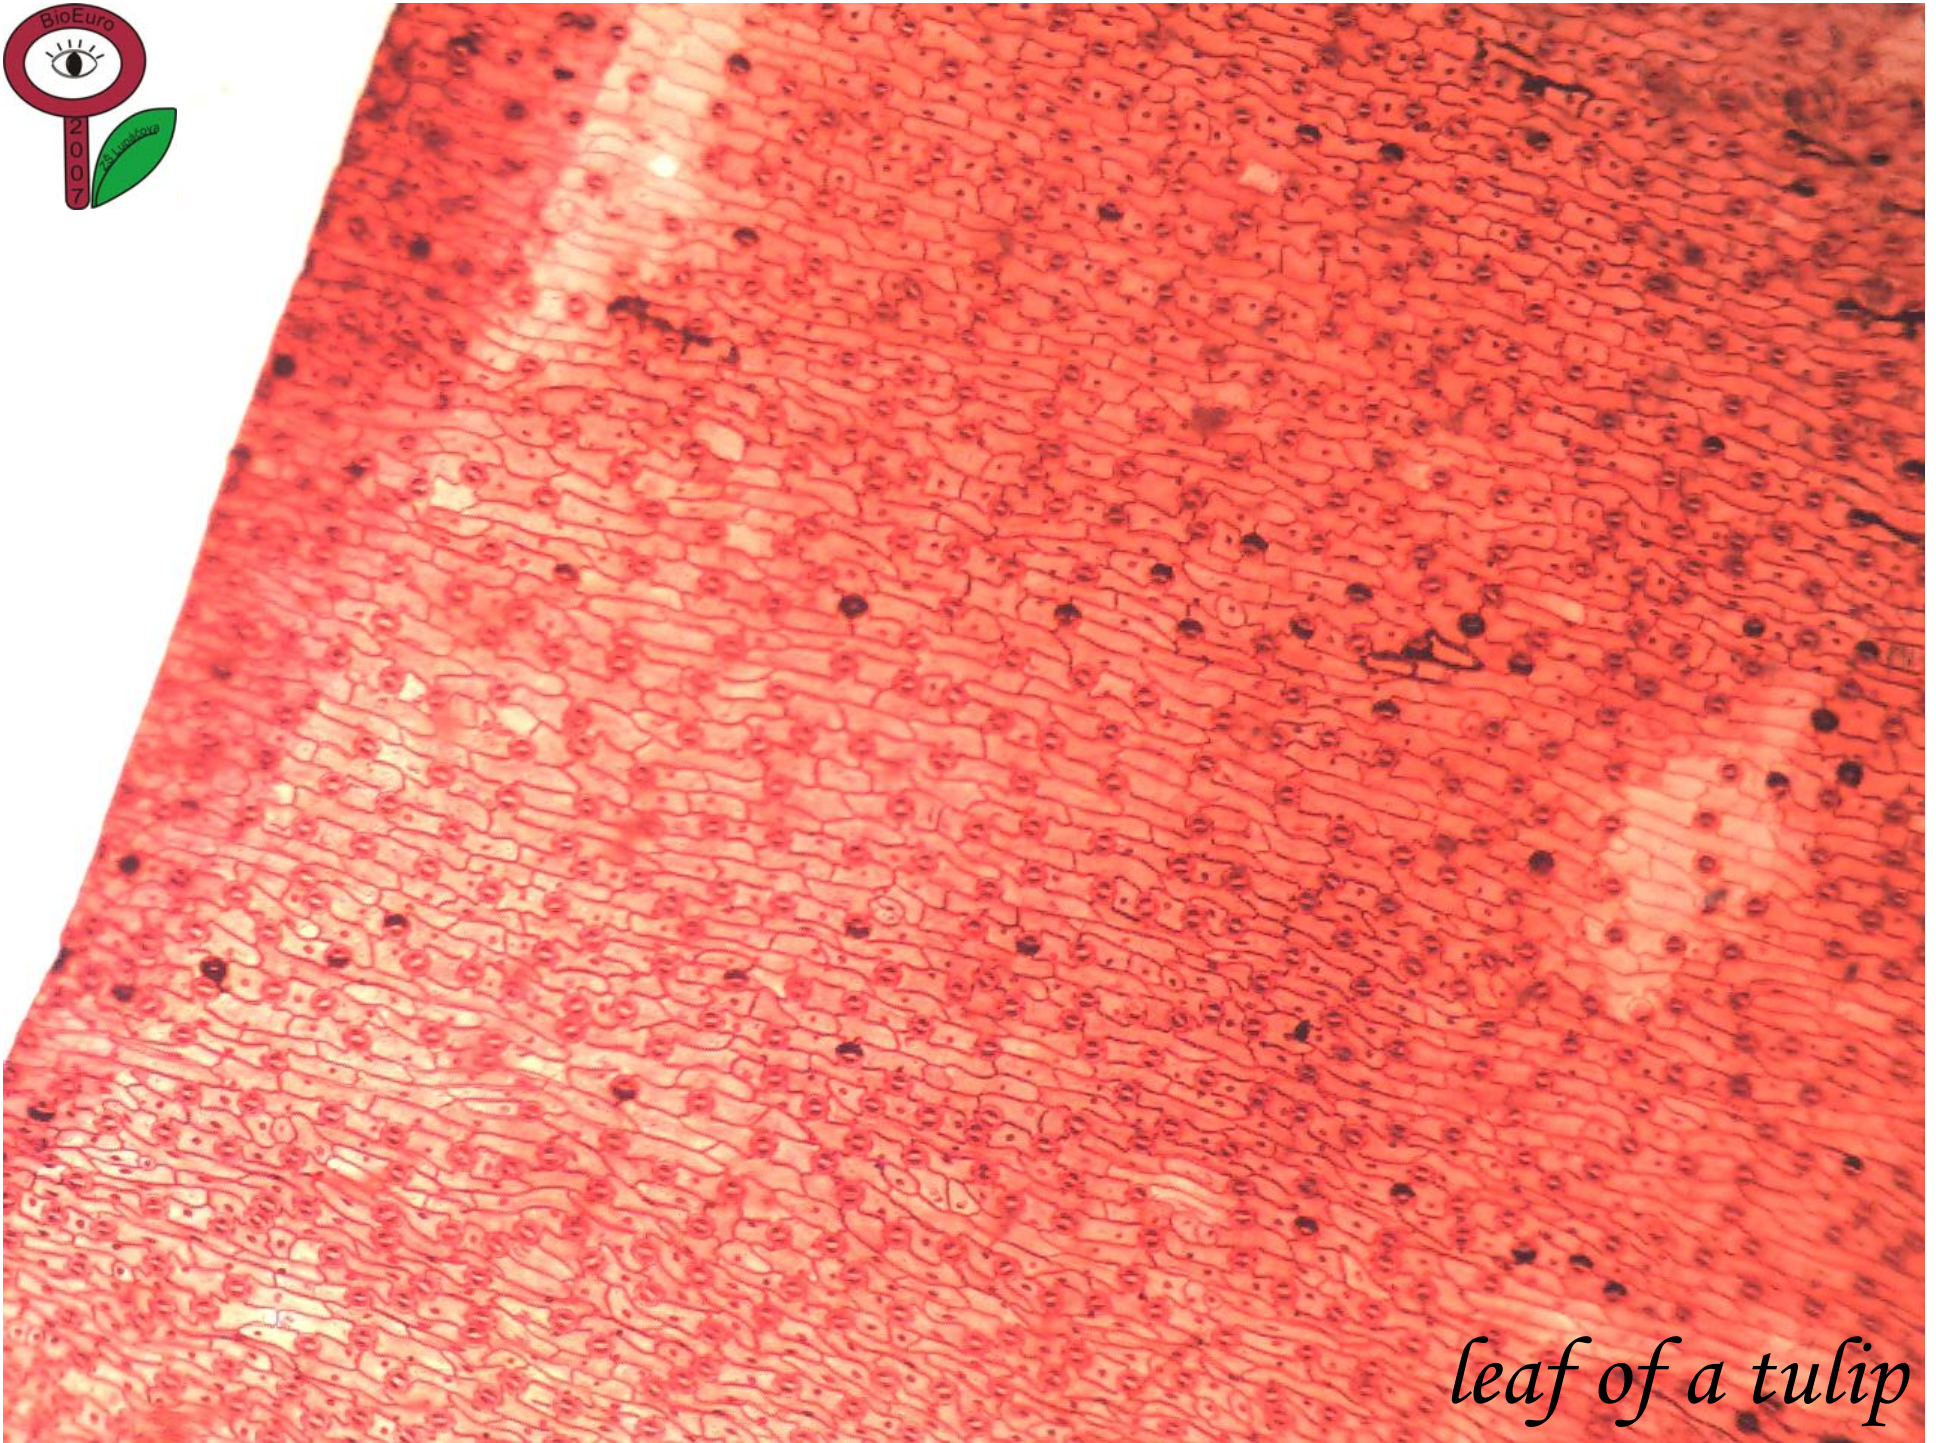

*wing of a
dragonfly*

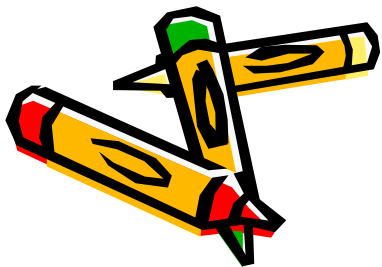

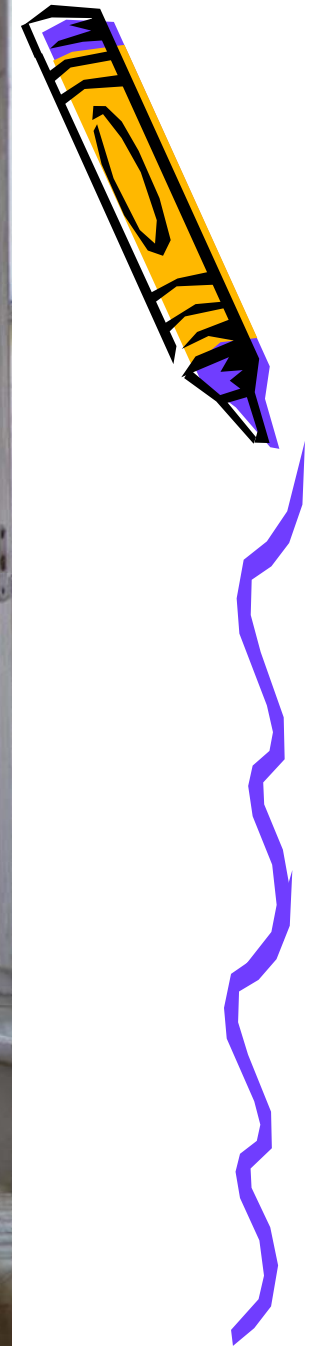

bud of a lilac

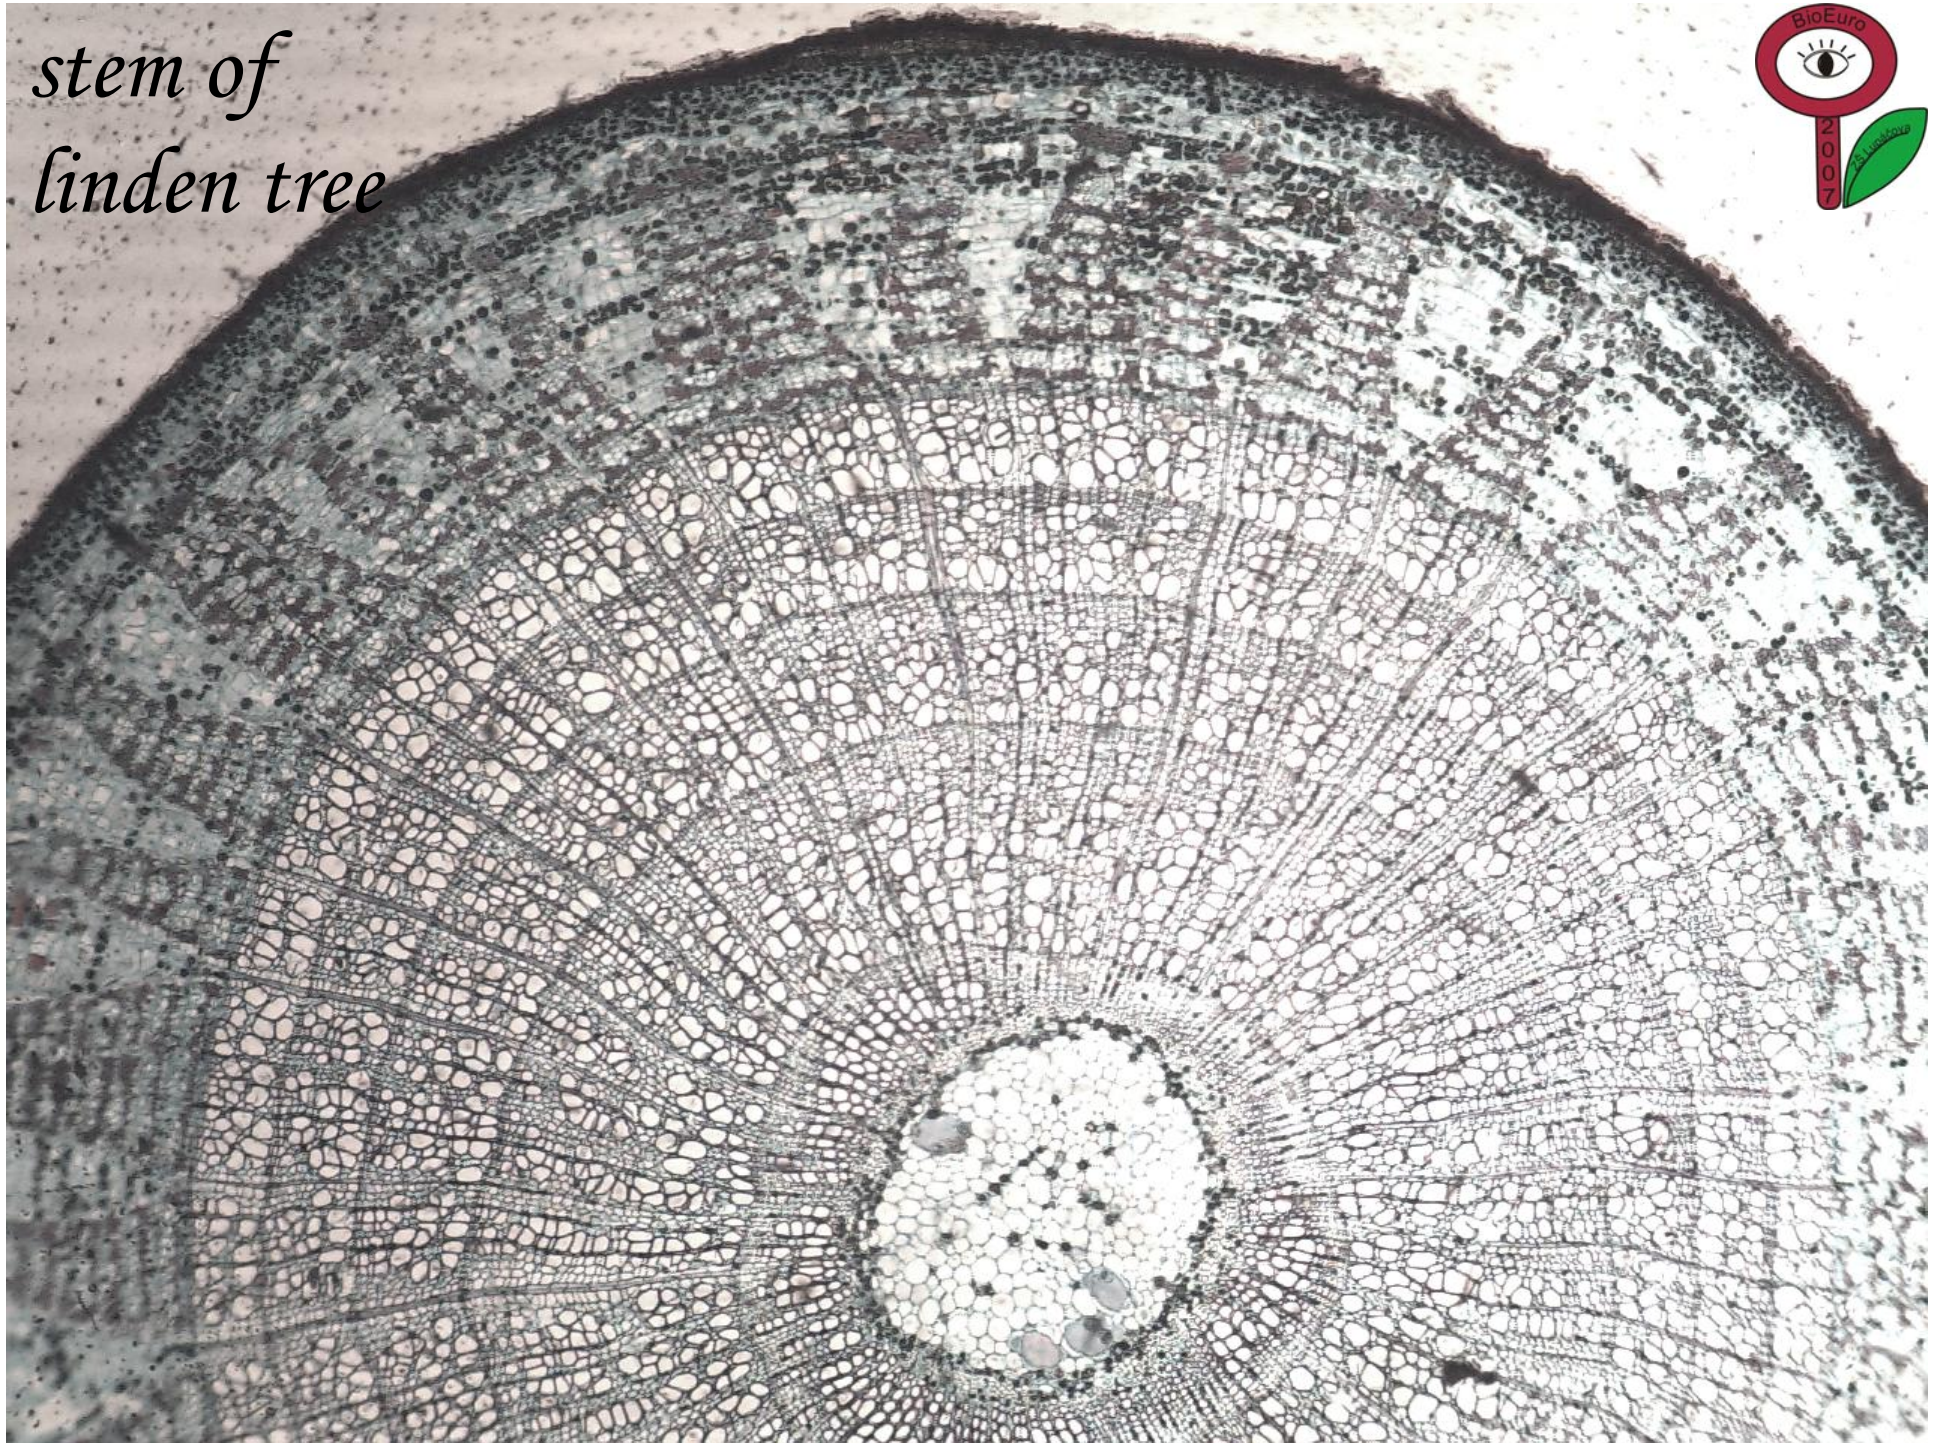

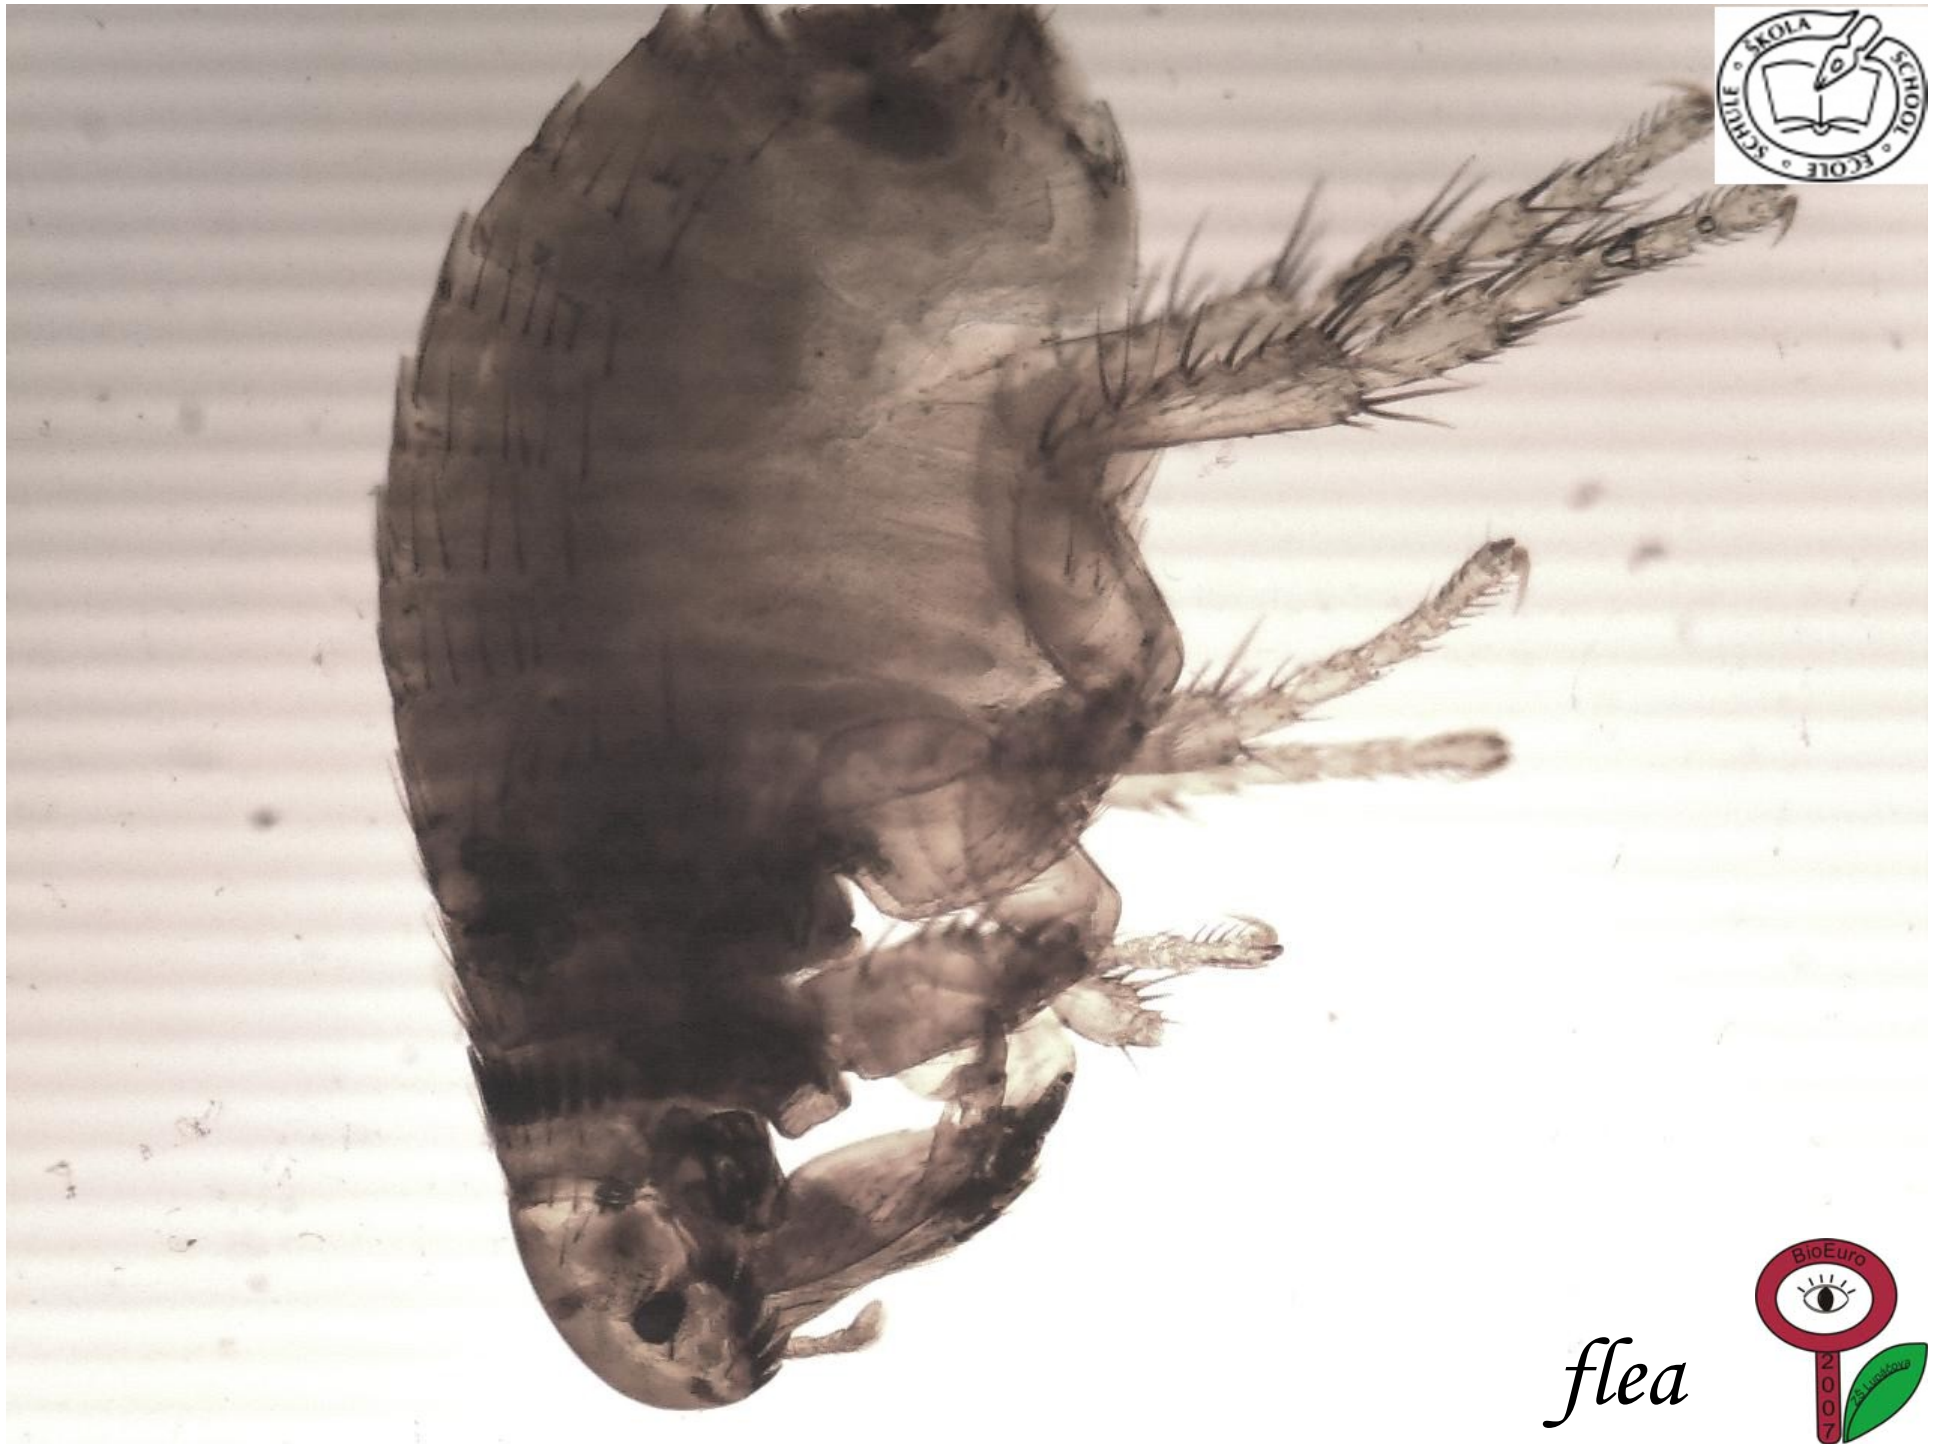

leaf of a tulip

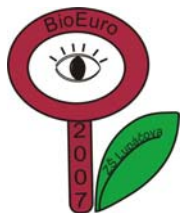

*stem of
linden tree*

flea

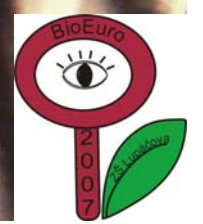

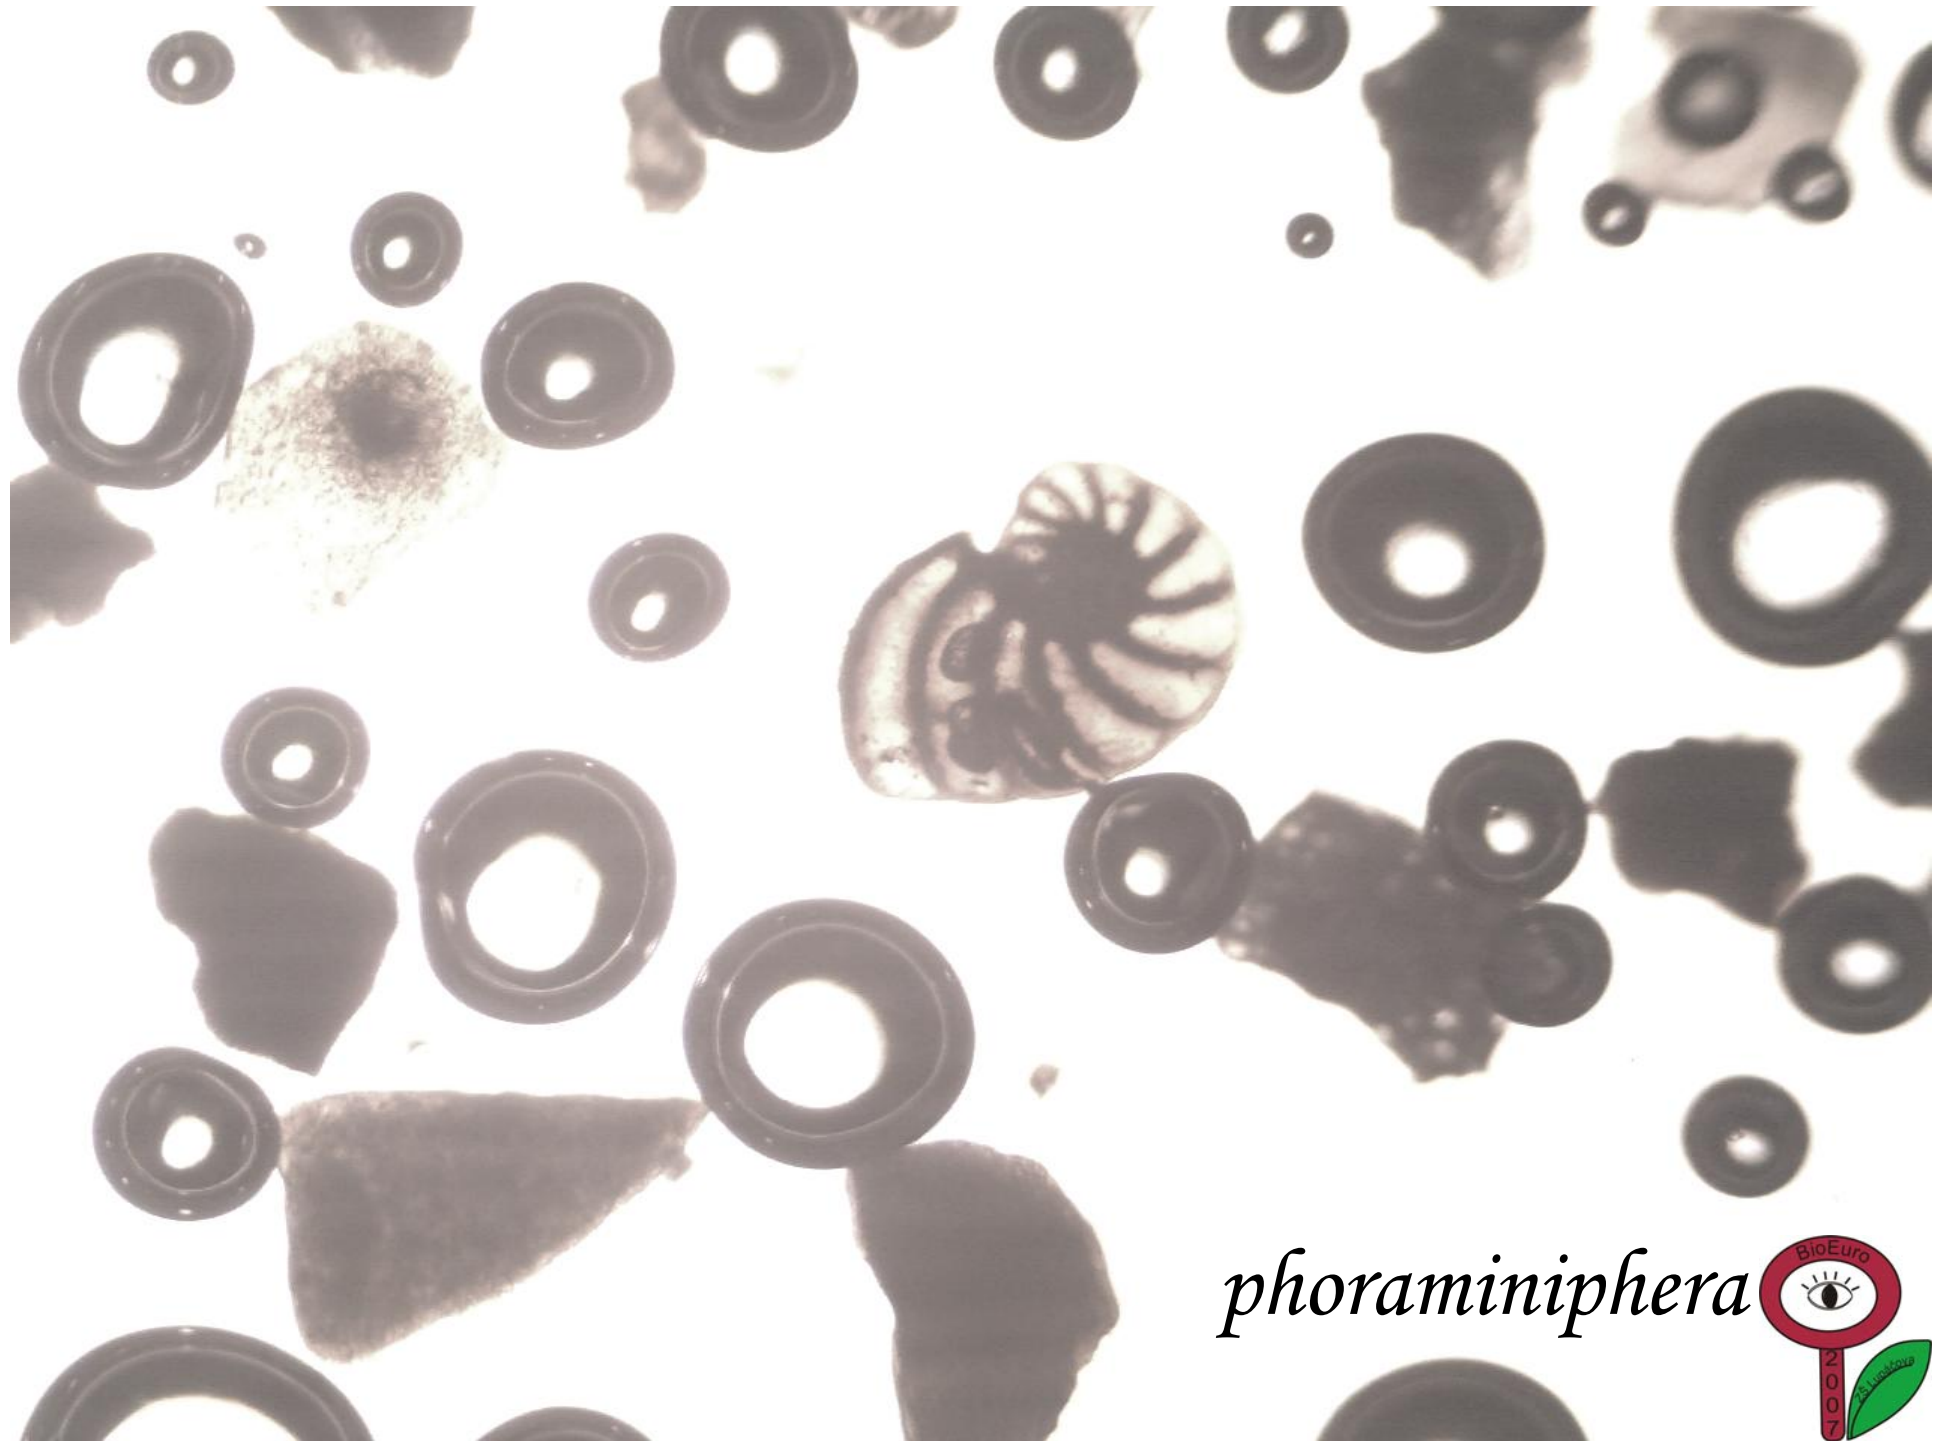

wings of butterfly

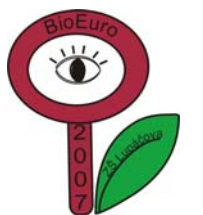

detail of a bird quill

phoraminifera
